

VITO 2016 will take place on Saturday, April 2, 2016
89 Chestnut Conference Centre.

This year's program is a comprehensive survey course that will cover topics in aortic, venous, carotid and peripheral artery disease imaging.

Aim: To provide a broadly-based educational exposure appropriate to support life long learning and for maintenance of certification and credentialing of technologists and interpreting physicians.

Objectives:

At the end of this conference, the participants will be able to:

- 1) Discuss the rationale for standards and guidelines in vascular ultrasound practice
- 2) Understand the application of standards to high quality technical and diagnostic protocols
- 3) Describe normal, abnormal and unusual findings in vascular ultrasound practice
- 4) Recognize personal knowledge base and facility quality issues
- 5) Develop a personal learning plan to address personal knowledge deficits

Accreditation: This continuing education event is held under the auspices of Continuing Professional Development , Faculty of Medicine, University of Toronto and is accredited for 9 hours of AMA Category 1 credit hours.

Faculty:

- | | |
|---------------------------------|-------------------------------|
| Dr. Douglas L. Wooster, Toronto | Dr W. Darrin Clouse, Boston |
| Dr John Harlock, Hamilton | Dr Theodore Rapanos, Hamilton |
